

# CS SHOW PIG FINISHER 16%

**PRODUCT CODE:** 1006

**FEED TYPE:** Meal

**MEDICATED - DENEGARD**

35 g/ton. For control of swine dysentery associated with *Brachyspira hyodysenteriae* susceptible to Tiamulin.

**CONTAINS CLARIFLY**

For prevention and control of house flies, stable flies, face flies, horn flies, and manure breeding flies in the manure of treated swine.

**FEATURES & BENEFITS**

- Champion's Select Show Hog Finisher is a perfect feed to give your hogs the final touches before you hit the show ring! Our finisher is ideal for giving your hog a softer look while having extreme muscle shape and tone! Transitioning from the show hog grower, the finisher will best perform a month before the show.
- **Multiple protein sources** including milk products, fish meal, and feeding oatmeal result in excellent feed conversion and maximize performance.
- **Fixed formulations:** Our formulas use only carefully-selected premium ingredients that provide the best nutritional value.
- **Expertly Formulated:** A team of experienced nutritionists create balanced formulas to meet all the nutritional needs of your show pigs.
- **Health & Productivity:** CS Show Pig Finisher is designed to balance amino acids along with protein, fat, fiber, and vitamin levels to ensure optimal nutrition and performance.

**FEEDING DIRECTIONS**

Feed as sole diet to show pigs from 100 lb to 250 lbs. Evaluate weight and condition in advance of show date. Adjust final condition if necessary by increasing protein or fat in ration. Clean, fresh water available at all times is critical for maximum growth rate.

**WARNING:** This feeds contains supplemental copper. Do not feed to sheep.

**CAUTION:** Use as the only source of tiamulin. For swine use only. The effects of tiamulin on swine reproductive performance, pregnancy and lactation have not been determined. Swine being treated with tiamulin should not have access to feeds containing polyether ionophores (e.g., lasalocid, monensin, narasin, salinomycin and semduramicin) as adverse reactions may occur. If signs of toxicity occur, discontinue use of medicated feed.

**WARNING:** Withdraw medicated feed 2 days before slaughter following use at 35 g/ton. Protect from excessive temperatures (temperatures that exceed 40 Degrees Celsius or 104 Degrees Fahrenheit). Do not store at warm temperatures up to 104 Degrees Fahrenheit (40 Degrees Celsius) for more than 7 days.
