

# SUPER 22 CALF STARTER

PRODUCT CODE: 554

FEED TYPE: Textured, Raspberry-Flavored

## MEDICATED - RUMENSIN

45 g/ton. For prevention and control of coccidiosis due to *Eimeria bovis* and *Eimeria zuernii*.

## CONTAINS CLARIFLY

For prevention and control of house flies, stable flies, face flies, horn flies, and manure breeding flies in the manure of treated cattle.

## GUARANTEED ANALYSIS

Crude Protein, Minimum	22.0%
Crude Fat, Minimum	3.7%
Crude Fiber, Maximum	3.5%
Acid Detergent Fiber, Maximum	9.5%
Calcium, Min..1.0%.....Max..1.5%	
Phosphorus, Minimum	0.5%
Salt (NaCl), Min..0.3%.....Max..0.8%	
Potassium (K), Minimum	0.9%
Selenium, Minimum	0.5 ppm
Vitamin A, Minimum	7,500 IU/Lb.
Vitamin D, Minimum	1,500 IU/Lb.
Vitamin E, Minimum	33 IU/Lb.

## FEATURES & BENEFITS

- **Consists of** steam flaked corn, oats, cottonseed hulls, and a high-quality protein pellet, coated with liquid molasses.
- **Fixed formulations:** Our formulas use only carefully-selected premium ingredients that provide the best nutritional value.
- **Expertly Formulated:** A team of experienced nutritionists create balanced formulas to meet all the nutritional needs of your calves.
- **Health & Productivity:** Super 22 balances protein, fat, fiber, and vitamin levels to ensure optimal nutrition and performance.
- **Raspberry flavored:** For increased palatability

## FEEDING DIRECTIONS

Feed Supreme 16 with forage to growing calves. Feed 1.5 pounds per 100 pounds of body weight to supply 4.55 mg of Diflubenzuron. The dosage of ClariFly Premix is proportional to the animal's body weight and must be offered daily throughout the entire fly season. The following table provides the feeding rate. Feed continuously to calves (excluding veal calves) to provide 0.14 to 1.0 mg monensin/lb body weight/day, depending on severity of challenge, up to 200 mg monensin/head/day.

**CAUTION:** Do not allow horses or other equines access to feed containing monensin. Ingestion of monensin by horses has been fatal. Monensin medicated cattle and goat feeds are safe for use in cattle and goats only. Consumption by unapproved species may result in toxic reactions. Do not exceed the levels of monensin recommended in the feeding directions, as reduced average daily gains may result. If feed refusals containing monensin are fed to other groups of cattle, the concentration of monensin in the refusals and amount of refusals fed should be taken into consideration to prevent monensin overdosing. This feed contains supplemental cooper. Do not feed to sheep. Clarify may causes moderate eye irritation. Avoid contact with eyes or clothing. Wear protective eye wear. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

## INGREDIENTS

Grain Products, Plant Protein Products, Bypass Protein, Processed Grain By-Products, Molasses Products, Calcium Carbonate, Whey Protein Concentrate, Natural and Artificial Flavors, Vegetable Oil, Sodium Aluminosilicate, Soybean Meal, Silicon Dioxide, Salt, Dicalcium Phosphate, Monocalcium Phosphate, Urea Formaldehyde Condensation Polymer, Magnesium Oxide, Manganous Sulfate, Zinc Sulfate, Zinc Amino Acid Complex, Vitamin E Supplement, Roughage Products, Ferrous Sulfate, Cobalt Glucoheptonate, Manganese Amino Acid Complex, Copper Amino Acid Complex, Mineral Oil, Sodium Selenite, Basic Copper Chloride, Vitamin A Supplement, Natural Flavors, Vitamin D3 Supplement, Calcium Pantothenate, Cobalt Carbonate, Niacin Supplement, Riboflavin Supplement, Pyridoxine Hydrochloride, Thiamine Mononitrate, Ethylenediamine Dihydroiodide, Vitamin B12 Supplement, Biotin, Menadione Sodium Bisulfite Complex, Folic Acid, Phosphoric Acid, Citric Acid (a preservative), Butylated Hydroxytoluene, Ethoxyquin, Butylated Hydroxyanisole (a preservative)
