

BEEF BALANCER LOW-ROUGHAGE 42-24 300R

PRODUCT CODE: 603

FEED TYPE: Pelleted

MEDICATED - RUMENSIN
300 g/ton. For improved feed efficiency.

FEATURES & BENEFITS

- A highly fortified, urea-based supplement designed to be fed with no or very little roughage (hay). Low roughage programs means less labor with gains equal or superior to all-natural programs.
- **Fixed formulations:** Our formulas use only carefully-selected premium ingredients that provide the best nutritional value.
- **Expertly Formulated:** A team of experienced nutritionists create balanced formulas to meet all the nutritional needs of your cattle.
- **Health & Productivity:** Beef Balancer Low-Roughage 42-24 balances protein, fat, fiber, and vitamin levels to ensure optimal nutrition and performance.

FEEDING DIRECTIONS

Mixing Directions

Whole Shelled Corn	1,800#
Beef Balancer 42-24 Hi-Energy	200#
Total Batch Size	2,000#

Feed as the sole ration to steers weighing 700 pounds and up and to heifers weighing 600 pounds and up, after they have been worked up to full feed. Designed to be fed with no or little roughage. The complete feed will provide 30 grams Monensin per ton. Feed continuously at the rate of 20 lb to provide 50-480 mg Monensin per head per day. Free-choicing salt and sodium bicarbonate is recommended. Provide clean, fresh water at all times.

NOTICE: Do not use in any finished feed (supplement, concentrate, or complete feed) containing in excess of 2% bentonite).

CAUTION: Do not allow horses or other equines access to formulations containing Monensin. Ingestion of Monensin by equines has been fatal. Feeding undiluted or mixing errors resulting in high concentrations of Monensin could be fatal to cattle. Must be thoroughly mixed in feeds before use; do not feed undiluted.

WARNING: A withdrawal time has not been established for pre-ruminating calves. Do not use in calves to be processed for veal.

CUSTOM OPTIONS *(requires minimum order)*

Available with Rumensin and Tylan
Available Non-Medicated

GUARANTEED ANALYSIS

Crude Protein, min.....	42.0%
<i>(This includes not more than 24% equivalent Crude Protein from non-protein nitrogen)</i>
