

NG 12% SWEET FEED

PRODUCT CODE: 705

FEED TYPE: Textured

NON-MEDICATED

FEATURES & BENEFITS

- Non-GMO sweet feed designed to be fed to all stages of equine, cattle, sheep, and goats.
- Pelleted: Reduced sorting and fewer flies.
- Fixed formulations: Our formulas use only carefully-selected premium ingredients that provide the best nutritional value.
- **Expertly Formulated:** A team of experienced nutritionists create balanced formulas to meet all the nutritional needs of your animals.
- Health & Productivity: All multi-species feeds leave nutritional gaps
 due to differences in nutritional requirements of each species. When
 feeding this, or any other multi-species feed, it is recommended that a
 species-specific mineral supplement be fed.

FEEDING DIRECTIONS

Feed as the grain mix at the rate of 0.5 to 1 pounds per 100 pounds of bodyweight per day with roughage at intake levels adequate to achieve desired gain, performance or condition. Provide clean, fresh water at all times.
